

Hope Loses Bid for Jet Bomber Base

Hope has lost its bid to reactivate the former military airport here and the strategic jet bomber base will be built at Little Rock as originally planned, the local committee learned officially late Tuesday.

The news came in a telephone call from Rep. Owen Harris, Fourth District congressman, who read letters he had received from Rep. Dwyer Short, chairman of the Committee on Armed Services, House of Representatives, and Frank R. Creedon, Director of Installations, Department of Defense.

Both letters reaffirmed selection of the Little Rock site. They were read over the long-distance telephone to the following local group gathered in Hope Chamber of Commerce's offices:

Mayor John L. Wilson, Jr., President Len J. Owen, Secretary Ray Lawrence, Fred Gresham, Basil York, and A. H. Washburn. The complete text of both letters was telegraphed from Washington overnight, as follows:

Short's Letter
Owen Harris, M. C., Washington, D. C.

Dear Owen: I have completed my review of the question as to whether or not the strategic air base, previously authorized by the congress for Little Rock, Ark., should be transferred to Hope, Ark.

You are aware of the fact that the site in the vicinity of Little Rock was previously approved by this committee and the Senate Armed Services Committee, and that the Congress subsequently appropriated funds in support of that authorization. In view of the persuasive case in support of the site at Hope, which was prepared by leading citizens of Hope and ably presented by you, I deemed it advisable to review the committee's previous position. I likewise required the Air Force to review its previous selection of the Little Rock site.

The Air Force has reaffirmed its previous position. In addition, the Department of Defense has reviewed the matter and since it has now allocated funds in support of the Little Rock site, it is obvious that the Department of Defense has reacquired the Little Rock site.

My own personal reconsideration of this matter includes the rebuttal of Mayor Wilson and Mr. Owen, president of Hope Chamber of Commerce, submitted to Congressman Davis under date of April 14, a copy of which was forwarded to me under date of April 24.

In view of all the aforementioned actions on the part of official agencies of the government and, without further belaboring the various contentions in this matter, I have concluded that sufficient facts are now available, without undertaking an on-site survey, to reaffirm this committee's approval of the Little Rock site.

It is never pleasant to give an adverse decision to one who has so consistently and forcefully represented the interest of his constituents as you have in the present case. But in the final analysis, I must do that which I conscientiously believe will best serve the national interests in the long pull which lies ahead. Sincerely yours,
DEWEY SHORT

Defense Dept. Letter
Owen Harris, M. C., Washington, D. C.

Dear Mr. Harris: This is in reply to your letter of April 13, 1953, addressed to the Secretary of Defense regarding the status of the proposed Air Force base at Little Rock.

Review of proposed construction at Little Rock Air Force base has been completed. The district engineer has been instructed to proceed to accept donation of the land from the City of Little Rock. Most of the facilities included in the initial increment of construction have been cleared to be placed under construction as soon as necessary planning has been completed. Sincerely yours,

More Rain for Much of U. S.
By The Associated Press
More rain appeared in prospect for areas in the East, Southeast and Midwest today as summertime weather continued in the western half of the country.

There were only a few wet spots in the midcontinent. One wet belt extended over Southern Iowa, Northern Missouri and Eastern Kansas. Showers also hit sections of Southern Wisconsin and North-eastern Illinois.

Jury Starts Deliberating Head Case
By RAY STEPHENS
DES ARC — The murder trial of Mrs. Linda Epperson Head was expected to go to the jury this afternoon.

Mrs. Head is charged with first degree murder in the drowning death last December of her 5-year-old foster daughter, Mary Wolfe.

James Head, her husband, also is charged similarly in the case, but he is under observation at the Arkansas State Hospital at Little Rock.

The packed courtroom sat in silence — save for the whispering of an infant — as the elderly Judge W. A. Waggoner told the all-white, all-male jury they could choose one of these verdicts:

First degree murder, penalty death or life imprisonment; second degree murder, penalty five to 21 years imprisonment; voluntary manslaughter, two to 10 years; involuntary manslaughter, two to 10 years.

State Asks Texas Suit Be Dropped
By GORDON BROWN
WASHINGTON — Arkansas filed suit against Texas in the Supreme Court yesterday asking that the Lone Star State be enjoined from interfering with a contract for an addition to the University of Arkansas hospital at Little Rock.

Tom Gentry, Arkansas attorney general who filed the suit, told a reporter he hopes to have the court act May 19 on his request for a temporary restraining order and for the court to take the whole dispute under advisement.

Involved is a contract between the University and the William Buchanan Foundation, Texas, under which the Foundation has provided \$500,000 an additional floor to the hospital now being built.

Background of the case, Gentry said, is this:

A wealthy Arkansas and Louisiana railroad man and planter, William Buchanan, now dead, established a trust fund in 1923. The fund, totaling one million dollars, was to be used in relieving pain and suffering in Bowie County, Texas, in adjoining counties and also for benefit of other persons as decided upon by the fund trustees.

Several years ago, when the University of Arkansas decided to build a new hospital and medical center at Little Rock the Buchanan Foundation trustees offered \$500,000 — if matched by a like amount by the University — for a sixth floor at the hospital. This floor, under the contract, was to be used for treating children of all races and creeds.

U. S. to Let Private Power Build Dams

By W. JOYNES MACFARLAN
WASHINGTON, (AP) — THE Eisenhower administration has decided to sidetrack public in favor of private development of a big Western water project and congressional reaction ranges from approval to "turn the rascals out."

Secretary of the Interior McKay, making the announcement yesterday, said the Eisenhower administration will allow private enterprise to develop hydroelectric power wherever possible so long as it does not interfere with "proper development of natural resources."

McKay told a news conference he has decided to set aside, at least for the present, plans for a \$60 million dollar federal dam at Hell's Canyon along the Oregon Idaho border. The department, he said, will no longer oppose a substitute proposal by the privately owned Idaho Power Company to build for 23 million dollars the first of three dams on the Snake River in the same area.

The Federal Power Commission (FPC) has the actual say as to whether the power company can go ahead.

McKay's Democratic predecessor, Oscar L. Chapman, had actively opposed the utility's application to FPC on the ground it would block the Hell's Canyon project forever. McKay, terming his decision "part of the policy of this administration," said the Interior Department would give the company a "fair hearing."

Blevins PTA Is Sponsoring Health Clinic

The Blevins PTA is sponsoring a spring health clinic in the Blevins Elementary School.

The dental examinations have already been completed and physical examinations have been made through the first three grades. The work is to be completed Friday, May 8, by Dr. Neil Crow and Dr. Charles Hesterty.

Since Friday, May 8, will be the last time the doctors will be here this spring, everyone having children who will be entering school this fall for the first time are urged to bring them Friday morning.

It will be necessary that all beginners entering school be vaccinated against smallpox before entering school in September. Mrs. Inez Thinner, county health nurse, will be here on Thursday, May 7, between 1 and 2 p.m. for the pre-school clinic. It is certainly advisable to have this work done before the hot summer months.

Democrats Curb GOP Power to Fire Workers
WASHINGTON (AP) — The House has decided that some of the firing powers held by Democratic Cabinet officers are too broad for their Republican successors.

It knocked out of the annual State — Justice Commerce Department appropriation bill yesterday provisions to extend to the new secretaries of commerce and state the same "absolute discretion" in firing security risk employees that their Democratic predecessors had, and to give it to the attorney general for the first time.

The surprise action was the biggest upset for the Republicans since they took over House control in January.

Their usually intact lines parted, while the Democratic minority, Continued on Page Two

Tidelands Bill Passed by Senate
WASHINGTON (AP) — The bill to give the states title to all-otated submerged lands off their shores debated in the Senate for more than a month may pick up marked speed and wind up within a few days on the desk of President Eisenhower, who has indicated he will sign it.

The measure which the Senate passed, 68-35, late yesterday after an acrimonious debate which started April 1, differs in one major respect and some minor ones from the measure approved earlier by the House.

But efforts were being made to persuade the House Republican leadership that the best course would be for the House to accept the Senate version rather than risk a new Senate talkfest over a compromise.

No action was likely today, since the House scheduled only memorial services for members who have died in the past year. But tomorrow, it is likely that the House will be asked to accept the Senate measure. If it does so, the bill would go to the White House.

Before approving the bitterly fought legislation, subject of over 1 1/2 million words of floor debate, the longest Senate battle in 15 years, the Senate halted down. Continued on Page Two

Red Invaders 25 Miles From Thailand Border

By LOUIS GILBERT
HANOI, Indochina, (UP) — The Communist invaders of Laos advanced to within 25 miles of the Thailand (Siam) border today as French paratroopers prepared to go into action from newly-arrived American planes.

All signs indicated an imminent enemy lunge for the Mekong River border somewhere between Pakxane and the Laotian administrative capital of Vientiane, 80 miles to the west.

Paratrooper officers and non-coms were called into terrain briefings here, indicating their unit might be air-dropped ahead of the advancing Communist Vietnamese columns.

At the same time, an undisclosed number of American C-119 cargo planes, the "flying boxcars" which also serve as troop carriers, began arriving from Japan.

French headquarters blacked out details of their defense preparations along the Red-threatened Mekong River boundary.

A headquarters spokesman said the Communists appear to have shifted their main target from the royal capital of Luang Prabang to the north to the border town of Pakxane.

Unconfirmed reports said the Thailand government has begun a forced evacuation from the Thai side of the Mekong frontier of members of Vietnamese refugee colonies suspected of pro-Communist sympathies.

Some 60,000 Viet and Annamese live off the rich soil on both sides of the river boundary.

The Laotian government also was carrying out token measures against suspected fifth columnists under prodding by French officials.

500 Rescued in Collision of Ships
HARWICH, England (AP) — Nearly 500 persons, including dozens of Americans, were rescued at sea today after they abandoned a Holland-England ferry severely damaged in a pre-dawn collision.

The ferry, the 4,190-ton Duke of York, lost her bow in the collision with a U. S. government freighter, the Haiti Victory. The freighter, with slight damage, picked up scores of the Duke of York passengers, and made port here.

A total of 436 passengers and 57 crewmen were saved from the Duke of York. Her operators, the British Railways, said the skipper and a skeleton crew of 15 remained aboard as she moved toward port tonight behind two tugs.

HARWICH, England, (AP) — The American transport Haiti Victory and the passenger-filled British steamer Duke of York collided in the lower end of the North Sea before dawn today, tearing away and sinking the steamer's bow.

Two of her passengers — a woman and child — were reported missing. Continued on Page Two

City Council in Routine Session

Hope City Council in its first regular May session last night considered many important issues but acted on very few.

Frisco railway was granted permission to spot and unload two boxcars daily at the old depot site on Louisiana street providing the truckway is surfaced to allow no interruption of traffic. The dubious council recessed long enough for the group to walk to the station and look the situation over. It is the plan of the railway to use the lease its old freight house and lease its old freight station to a tace concern.

The council was also told that a list of houses considered to be fire traps has been turned over to the city attorney with instructions to start condemnation proceedings at once.

In other action the group agreed to pay R. T. White \$100 for clear title to a strip of land 10 feet wide running on S. Walnut from 9th to the property line of Lawrence Martin; ordered two final pay checks due Thomas N. Gulliams paid to his widow; accepted a low bid from H. R. Oasler for painting the police station; agreed to rent a telephone line connecting the radios of the city and council officers; delayed a request from W. H. Gunter for refund on alleged overcharge of electricity.

The Rev. L. T. Lawrence extended appreciation of the Presbyterian Church for the city's help in studying a new church building.

Shover Springs Community Plans Improvements

Shover Springs community improvement club held its second meeting Monday night and made plans for several projects.

The first step to be taken is to fix all mail boxes alike; landscape the church and community building grounds and garden and food preservation.

Details on fixing mail boxes will be sent out by Mrs. Lorraine Blackwood, Home Demonstration Agent and co-operation of everyone is urged.

The group will meet every two weeks with the next session scheduled May 18.

Warns Chinese They Face An Aerial Drubbing

By MARVIN STONE
SEOUL, (INS) — Fifth Air Force Commander L. Glenn O. Breaux warned the Communists today they face an aerial drubbing if they choose full-scale war instead of the present opportunity for peace.

The white-haired 48-year old tactical aviation expert disclosed that his U. S. Fifth Air Force already has hit the Reds so hard they do not have supplies in North Korea to last for more than 10 days, or, at the most, two weeks of all-out war.

And Breaux bluntly warned the Communists that "A moratorium on air might is the greatest it has ever been in Korea. He said:

"The Fifth Air Force is in very good shape quantitatively and qualitatively — the best shape since I've been here."

Breaux will leave Korea for reassignment June 1 after a year as commander of the Fifth. He made it clear that if the current truce talks at Panmunjom fail and a "active war" resumes, United Nations warplanes will be ready to go after troop and supply targets forced into the open.

"The Communists have already been badly hurt by our attacks," the general said, "but if the truce talks failed and active war resulted they would be forced to come out into the open and that is where we can hurt them most."

And, a fighting general who flew 13 combat missions in F-86 Sabres against Red targets, cautioned however that it would be a great error to underestimate the power of the Chinese Communist Air Force itself — an air force of superior numbers that could be thrown into battle at any time.

No Progress in Korean Peace Talks

By ROBERT TUCKMAN
PANMUNJOM — A U. N. truce negotiator today said "zero" progress had been made toward a Korean armistice after the Reds rejected a proposal to free 32,000 North Korean prisoners who refuse to go home after a truce is signed.

The Reds again ignored the Allied nomination of Pakistan as neutral custodian of 48,500 prisoners who refuse to return to their Communist homelands.

Instead, Gen. Nam Il charged the Allied proposal was "void of reason" and "unworthy of ratification." He reiterated the Red demand that, balking captives be shipped to a neutral nation and that the functions of the neutral be ironed out before deciding anything else.

Gen. William K. Harrison, Jr., suggested that the 32,000 North Koreans be freed immediately after a truce is signed and that they be given civilian status so they could settle anywhere in Korea.

He made no mention of Chinese captives who refuse repatriation. Some observers speculated that the U. N. Command might be willing to listen to a compromise plan which would send Chinese to the neutral custodian while leaving Koreans in Korea.

"The Reds want all 48,500 sent bodily to the neutral nation pending a decision as to their future. They insist that all will want to go home once their fears have been quelled by explanations."

Jets Drive Far Into North Korea

By MILO FARNETT
SEOUL (AP) — U. S. Thunderjets swept almost to the Yalu River boundary of North Korea today and dive bombed at least 17 major buildings at the abandoned Kangju Dam.

Sabro jet fighters flew escort for the 36 Thunderjets in one of the war's deepest fighter-bomber penetrations of North Korea.

The Thunderjets blasted buildings used by the Reds to store supplies and shot up a rail line but did not bomb the partially completed dam, which work was abandoned when the war began in the Air Force said.

The 16-mile battlefront remained quiet. Only light mortar contacts were reported.

Pre-School Clinic to Be Held at Courthouse Here

James H. Jones, Superintendent of Schools, announced today that a Pre-School Clinic will be held at the Court House on the mornings of May 14 and 15, from 9:30 to 11:30 a.m. All parents who have children entering school for the first time should bring them for a physical check-up at this time.

A child who will be six years old on or before December 31, may enter school this fall.

The schedule for the clinic will be as follows:

All pre-school children in Hope School District residing outside the city limits will report Thursday, May 14, from 9:30 to 11:30 a.m.

All pre-school children residing in Ward 3 and Ward 4 will report Thursday May 14, from 9:30 to 11:30 a.m.

All pre-school children residing in Ward 1 and Ward 2 will report Friday, May 15, from 9:30 to 11:30 a.m.

A medical doctor and dentist will be on hand for these examinations, assisted by the County Health nurse.

The pre-school clinic is sponsored by the PTA Units of Hope School District. PTA workers will also assist in the clinic.

It is very important that each child receive a physical examination before he enters school. It is our hope that each parent will take advantage of this opportunity and have their children examined.

often split wide open, stuck closer together than on many past votes.

Moneywise, the House sustained the dollar recommendation of its appropriations committee, cutting \$326,847,000 from the \$1,480,494,015 requested by former President Truman last January.

The \$1,143,146,712 approved as the bill was passed 345 and sent to the Senate was split up this way: State, \$102,744,787; a cut of \$18,403,803.

Justice, \$170,200,000, a cut of \$7,688,000.

Commerce \$61,180,025 a cut of \$270,000,000.

This boosted to more than \$1,300,000,000 amounts trimmed by the House of three annual budget bills already passed.

The firing provision that created the fuss was similar to one granted in previous money bills to the secretaries of commerce and state. It would have given them "absolute discretion" to fire employees when they found it necessary "in the in-

terests of the United States."

Democrats claimed the provision would be necessary because President Eisenhower has extended to all departments his provisions of a 1950 law allowing them to suspend employees for security reasons.

The main difference is that the 1950 law gives the suspended employee the right to demand a hearing. The appropriations bill provisions haven't carried that protection for employees.

Republicans said they could see no reason for not giving GOP agency heads the same authority their Democratic predecessors had. They declared the broad firing power would be used only to get rid of subversives and sex deviates.

Some members, including a few Republicans, voiced fears that the power might be used to destroy the protection given federal employees by civil service and veterans' preference laws.

luntary manslaughter, 1 year; or outright acquittal.

By RAY STEPHENS
DES ARC 43 — The trial of Mrs. Linda Emerson Head on a charge of killing her 5-year-old foster daughter today seemed to be hinged on one major question.

Did Mrs. Head know that Mary Wolfe was dead when the little girl was placed in a water-filled bathtub?

The all-white jury of 12 men was expected to get the case today possibly before noon.

Both Prosecutor J. H. Reed and Defense Attorney John Thweatt said they would wind up their cases by mid-morning.

Mrs. Head, 33-year-old mother of two children, is charged with first degree murder, and Prosecutor Reed is demanding the death penalty. Her husband, James Walter Head — now committed to the State Hospital as insane — also is charged with slaying the child.

Mrs. Head, trim and neat in a blue dress, took the stand in her own defense yesterday, and flatly accused her husband of killing the child by beating her.

She denied that she had any part in the slaying, and actually attempted to stop her husband's attack on the child.

The state contends that the beating administered to Mary — evident from her bruised and lacerated body — did not cause her death. The state medical examiner says that the child was alive when

she was placed in the barrel and died of drowning.

Prosecutor Reed made no effort yesterday to prove that Mrs. Head actually participated in the final beating, although he attempted to show that she, too, had mistreated Mary over a long period of time.

But Reed did contend that Mrs. Head knew the child still was alive when Mary was huddled in curtain cloth, wrapped in baling wire and placed in the barrel. The body was anchored to the bottom by the head of a sledge hammer.

Reed called Dr. Anderson Not (to) the stand as his final witness yesterday. The state medical examiner testified that Mary drowned.

Then, on cross-examination by Defense Attorney Thweatt, the doctor said Mary possibly was in a coma from the time she was beaten on Dec. 24, until she was placed in the tank three days later.

trapped in the still afloat after noon of the Duke of York, which the Haiti Victory was reported trying to tow to the port of Haichang, 40 miles away on England's northeast coast.

The other passengers — some of them injured and reported variably at from 319 to 436 — were transferred first to the 7,000-ton Haiti Victory.

Says Flat Films on Way Out

LITTLE ROCK, (AP)—Independent Theater Owners of Arkansas were told yesterday that 19 years from now the old experimental three-dimensional movies will completely replace "flat" pictures.

John Sims of Memphis, technical engineer for the National Theater Supply Co., said at the opening of the ITOA's 24th convention here that by 1963 movie goers will wear their own personal 3D viewing glasses, sit in newer and wider theaters, hearing sounds from all directions and watching pictures that seemingly jump out at the audience.

"The popularity of 3D will bring back to the theaters at least 25 per cent more regular customers than we have now," he predicted.

mount rights. Sen Douglas (D-Ill.), an opponent, said oil in the lands involved has been estimated by geologists to be worth from 50 to 500 billion dollars.

Ike to Talk to Governors Again

By DAYTON MOORE

WASHINGTON, (UP)—President Eisenhower's experiment in briefing state governors on national and world problems is likely to be repeated.

The conference which brought governors of 50 states and territories here on Monday and Tuesday was such a success that Mr. Eisenhower and his gubernatorial guests expressed mutual hopes it can be done again.

No time or date was set. The governors' annual meeting, to be held at Seattle in August, is a possibility.

It wouldn't be possible for all the high administration officials who briefed this week's meeting to attend the Seattle meeting. But efforts to get at least one or two of them for convention speakers are almost certain, Mr. Eisenhower has been invited but has not said whether he can go.

The President and Gov. Allan Shivers of Texas, chairman of the governors' conference, said the federal and state leaders all benefited from the discussion of mutual problems.

U. S. Casualties Increase 395

WASHINGTON, (UP)—American battle casualties in Korea now total 134,865, an increase of 395 over last week's report, the Defense Department said today.

The increase includes 89 dead, 279 wounded, and 27 missing. Last week's report showed an increase of 623 casualties.

reported through last Friday.

The overall total included 104,476 Army, 1,984 Navy, 26,897 Marine Corps and 1,440 Air Force casualties.

It is believed that the wild br bears of Britain were eliminated about 1,000 years ago.

YOU MAY HAVE PIN-WORMS AND NOT KNOW IT!

Fidgeting, non-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, those pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermifuge... the small, easy-to-take tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

You really GO

When you go Ford V-8 you get this fine car power without paying a premium!

What kind of engines are you finding in more and more of America's finest cars? Yes, V-8 engines. For no other type of car engine available today can beat V-8's for compactness and smoothness. And Ford and only Ford offers you a V-8 engine in a low-priced car! It's the result of Ford's experience building more V-8's than all other makers combined . . . over 13,000,000 of them. And Ford's V-8 costs you little to run—thanks to gas-saving Automatic Power Pilot.

when you go V-8

It's just one of 41 "Worth More" features that make Ford worth more when you buy it . . . worth more when you sell it!

Imagine! A car so low in first cost keeps its value better than any other car on the American Road. Used-car figures on last year's cars prove that. And with its 41 "Worth More" features, this newer, finer '53 Ford holds still greater promise of long-lived value. You'll find built-to-last . . . built-to-stay-in-style Crestmark Bodies. You'll find a new kind of ride that practically "repaves" the roughest roads. You'll find advances like Center-Fill Fueling . . . suspended clutch and brake pedals. And these are but samples of the reasons why Ford is worth more when you buy . . . worth more when you sell.

Reynolds Appeals Income Tax Ruling

LITTLE ROCK — Arkansas Revenue Commissioner Horace E. Thompson and Ft. Smith newspaper Publisher Donald W. Reynolds today asked the Arkansas Supreme Court to prohibit Chancellor C. M. Wofford of Ft. Smith from taking further action in a legal dispute over whether unpaid state income taxes are owned by Reynolds or his divorced wife, Edith.

Thompson and Reynolds contend that Wofford is without jurisdiction to renew a finding of former Revenue Commissioner Dean R. Morley that the taxes are owned by Mrs. Reynolds, who now lives in New York.

Prices Moving on Two-Way Trend

By SAM DAWSON

NEW YORK — Prices are moving on a two-way street this week as buyers and sellers adjust to new business conditions.

Stock prices have made their best advance of the year this week — but corporate bond prices have slumped because traders think their yields are too low in a new day of dead money.

The cost of U. S. Treasury borrowing jumped again this week to a new 20-year high on 91-day bills — and the price of Treasury bonds have slipped to record lows.

Mortgage interest rates are going up — but the government reports that fewer new homes have been started so far this spring than last. The supply of money for mortgages is tight, even though the demand for it isn't quite as high as a year ago.

Commodity prices have staged the broadest advance of the year — but in the market place price weakness is reported for such items as milk and potatoes.

Pork prices have been climbing and baby boy, Hope, Erie Hollis, Patmos.

Yanks Scalp Indians by 11-1 Tally

By BEN PHLEGAR
AP Sports Writer

Until last night the Cleveland Indians hadn't met the New York Yankees this season. Today they were wishing they had met well enough about.

The Yankees limped into Cleveland yesterday feeling mighty low. They were at the end of a rough six-game Western road trip during which they had had to scramble to break even against second division teams. Their pitching staff was shot. The hitters were batters and straight time.

CHAPTER THIRTY-TWO

ALEX and I spent the next three days mulling things. Blucher's men got the search down to a smooth, old routine. Some of them carried luggage, others were conductors' uniforms, or maintenance workers' overalls. They gave every berth, every compartment and every men's room, plus the diners and club cars, a once-over that couldn't arouse anyone's suspicions.

And we didn't find Sherk.

By the fourth night I was getting impatient. Alex and I were on the platform, collars turned up against a chilly wind, waiting for the Rambler, the last train until the next morning. It was due within eight or ten minutes.

"Well, let's hope this is it," Alex said.

When the Rambler thundered in to a stop, Blucher's men unobtrusively entered the cars. Passengers went aboard, and departing passengers trickled away to cab ranks.

The conductor pulled out his watch.

Alex caught my arm. "Up ahead," he said.

"I looked that way and saw one of Blucher's men hiding one arm above his head."

"Hold the train till I get off," I said to Alex, and then trotted down the platform. Blucher's man said quietly, "In the men's room, car twenty-two, gabbing with the porter."

I boarded the train and walked through a darkened car, and into a room which was numbered twenty-two. There was a green curtain hanging in the men's room door, and I pushed it aside and looked in. The porter was standing near the window, and I was aware, without turning my head, of a man who sat on the long black leather couch.

"This car twenty-one?" I asked the porter.

"No, sir. This is twenty-two. Twenty-one is one car behind."

"Thanks." Turning, I took a casual glance at the man on the couch. He returned my look, unconcerned, a big stocky man with heavy features and thick black hair. There was a brief case beside him, a nice fat one.

I went down the aisle, through two cars and left the train.

"We've done it," I said, rejoicing. "It's Sherk, all right. Thank you boys for me, friend. I'll be heading for Chicago in the morning."

He slapped my arm. "Good luck, boy. Don't mess up the deal out there."

"No, I won't. That's a promise." He came with me down to the cab ranks. "You said this was a personal deal. Sometime I'd like to hear about that, Bill."

"It's not a pretty story," I said. "Never mind then. I was just curious."

"No, you'll have it. I plan to be back at my old best in a couple of days. We'll celebrate and you'll hear the whole story."

He was frowning as I climbed into a cab. "Take it easy," he said.

First Baseball Game of Year at Park Tonight

In what appears to be a top notch battle the Reddies of Henderson State Teachers will tangle with the Muleriders of Southern State at Legion Field in Fair park tonight at 8 o'clock. This inter-collegiate non-conference baseball game will be the opener for Hope fans.

The Reddies and Muleriders have played a two game series this season with each team winning one game. Tonight's affair will be the final between these two clubs this year.

Southern State was defeated by Henderson on April 17 by a 6 to 0 score. Yesterday the Muleriders turned the tables on the Reddies in a regular AIC contest in Magnolia and emerged the victor by a 2 to 0 score.

Travis Farrar of Southern State pitched a no hit no run game and set the Reddies down. He faced only 30 batters and struck out 7. This was Farrar's second no hit of the season. In the season's opening game against Arkansas Tech he set the Wonder Boys down in the same fashion.

Both teams are sprinkled with Hope products. The Reddies boasting of Reeder Huddleston, pitcher, Gary Anderson of the Hope Legionnaires at Short stop, and Gordon Bensley another Hope product in left field.

The Muleriders will start with an all Hope Battery of Bobby Ross pitching and Will Martin backed up by Hope's Bill Gunter at third base. Horace Thomas, Mulerider, right fielder, played for the Legionnaires last year.

The Hope High School band will furnish pre-game music for this opening game.

Admission prices have been set at 50c for adults and 25c for students. These prices are the same as last year's.

Probable Line-ups:

Henderson
Jim Eason, Hot Springs, or David Lockwood, Delight, Pitcher
Ben (Bucky) Wells, Whelen Springs, Catcher.

Wade Bratton, Warren, 1st base
Sonny Abbington, Pine Bluff, 2nd base.
